

**GATES ALBERT, INC.**  
Specialist in Precision-Turned Products

## We Take Care Of Everything

We can help you with services such as: Blanket Orders, KanBan Releases and Supplier Portal Management to help keep your inventory costs low. You can expect quality parts, delivered on time at a globally competitive price. The expertise of our employees is your intangible extra. It's impossible to put a value on the know-how attained through over 60 years of experience.

**Gates Albert is one of the largest precision multi-spindle screw machine facilities in North America with over 100 Davenport machines in production.**

Founded in 1954, Gates Albert has grown into one of the premiere precision turn parts companies in North America. For over 6 decades, Gates Albert has met the needs of a changing and dynamic industry producing high volume precision turned components. Our specialty is Davenport 5-Spindle Precision Turning for a wide variety of industries.

### Industries

- Aerospace
- Air Conditioning
- Appliance
- Automotive
- Compressors
- Electronics
- Flow Control
- Fluid Power
- Heavy Truck
- Hydraulics
- Outdoor Power Equipment
- Marine
- Medical
- Motion Control
- Munitions
- Plumbing
- Pneumatics
- Power Generation
- Recreation
- Refrigeration
- Safety Devices

### Capabilities

- Multi-Spindle Precision Turning
- Over 100 Davenport and New Britain Screw Machines
- High and Low Volume Quantities including Prototype Lots
- Capable of turning bar stock from 1/16 in. to 1-3/8 in. (1.5mm – 35mm) in diameter and up to 4 in. (100 mm) in overall length
- Tolerances to 0.0005 in.
- DÜRR Precision Cleaning System
- Light Assembly and Testing
- Automated Feature Verification Systems
- Laser Inspection
- Customer Packaging
- Superior Engineering Support including VA/VE
- Dedicated Continuous Improvement Program
- Extensive Employee Training Program
